FUELSTATION BUNDED TANKS

Complete fuel oil storage and dispensing solution fully compliant with:

- The Control of Pollution (Oil Storage) England Regulations 2001
- The Water Environment (Oil Storage) (Scotland) Regulations 2006
- Tested and Certified to OFTEC OFS T-200 As Recommended By EA & SEPA

Includes:

Pump, Hose, Automatic Shut-off Nozzle, Flowmeter & Manual Gauge

- Low maintenance – enclosed bund means no rainwater or rubbish build-up
- Portable – can be relocated when you move
- Secure – fittings concealed within lockable hatch with hinged or roller-shutter door
- 110% Bund capacity – complies with legislation
- Robust all-welded steel construction
- Less site preparation than a traditional brick bund
- High quality durable paint finish
- Wide choice of pumps and other ancillaries

Fuel Management System options

Optional hose reel for increased range

Electric pump kit fitted as standard

Integrated security fencing also available
